

Notice of Availability of Institutional and Financial Aid Information

The Higher Education Opportunity Act of 2008 (HEOA) reauthorized the Higher Education Act of 1965, as amended (HEA). In addition to reauthorizing the HEA, the HEOA also included additional requirements of all institutions of higher education that participate in Title IV student aid programs. In accordance with these requirements, Carolina Christian College's Consumer Information page is designed to provide our students, potential students, and additional stakeholders access to the institutional and financial information they need. Some of the information is available on other web pages and links to those pages have been provided in the appropriate sections.
