

Cohort Default Rate

A cohort default rate is the percentage of a school's borrowers who enter repayment on federal student loans during a particular fiscal year, Oct 1 through Sept. 30, and default within the cohort default period.

The Department of Education calculated the school's cohort default rate by dividing the number of borrowers from the school entering repay in a cohort year and default within a 3-year period divided by the number of borrowers from the school entering repayment in the cohort year.

FY 2018 8.5%

FY 2021 2.4%
